

**All North**  
TRUCK CENTRE

**#1 CHOICE FOR  
PROFESSIONAL DRIVERS**

**VALID Sept 1 – Oct 31, 2020**

**Cobra**

"Breaker, breaker" never sounded so good. This is a beast of a model that works flawlessly under any condition, whether you're traveling on washboard roads or simply cruising the super slab. Devotees praise it for its reputation and flawless performance, best used in a vehicle that has the space to accommodate a full-sized rig. Cobra nailed it with this model and has left it virtually unchanged for over 30 years. After all, if it ain't broke, don't fix it.

# HEAVY DUTY STARTERS AND ALTERNATORS

**Mitsubishi Electric — When It Absolutely Has To Start**

## Product Features – A160 Alternators

- **Easy to Install:** Replaces 2-, 3-, 4-, or 5-wire system – no wiring harness modification required
- **Exceeds industry requirements:** for heat, vibration and corrosion resistance
- **Best-in-class efficiency:** 60-plus percent efficiency for REDUCED FUEL CONSUMPTION – save hundreds of gallons each year
- **Lightweight and Compact:** Weighs 20 pounds and less than 8 inches long
- **Long-Lasting Use Life:** designed to perform for over 1,000,000 miles
- **Big Time Battery-Saving Power Output:** Exceeds 110 amps at idle, 160 amps at road speed
- **Remote Sense Included:** as standard equipment
- **Simple Ordering & Stocking:** A single A160 part number replaces ALL Remy, Bosch, Denso, or Leece-Neville PAD-Mount HD Alternators sold since 1998 – brush or brushless

**MELAM1771    \$379.95**

## Product Features – A200 Alternators

- **Best in class efficiency:** the A200's 70+ percent efficiency rating dramatically reduces fuel consumption, saving you big money each year
- **You've Got the Power:** the A200 Delivers more than 137 amps at idle, more than most alternators produce at road speed. That means less discharge for up to 50 percent longer battery life
- **Compact and Lightweight:** Weighs 21 pounds, length, 8 inches
- **No wiring harness change required:** Replaces 2-, 3-, 4-, or 5-wire system
- **Patented electronics design and heat-sinking technology:** give you lower operating temperature for impressively longer use life
- **Simple Stocking and Ordering:** Just one A200 part number is a direct replacement for ALL Remy, Bosch, Denso, or Leece-Neville PAD-Mount HD Alternators sold since 1998 – brush or brushless
- **Remote Sense:** is standard
- **Built to Last:** Exceeds industry requirements for heat, vibration and corrosion resistance

**MELAM0071    \$595.95**

# EASY DOES IT:

## The Diamond Gard® No-Hassle Warranty Policy.

### Warranty Features

- Three-year – Unlimited Mileage
- No-Fault Warranty – All failures honored\*
- New replacement unit provided – the same as used for OE (not remanufactured)
- Warranty re-clocks – The new replacement unit carries a new 3-year unlimited miles warranty (not pro-rated)
- Installation labor paid with documented Dealer or Distributor installation
- All Claims processed within 30 days of receipt
- Claims can be filed through the dealer, distributor or online
- Toll-Free phone number 1-888-MELCO4U ext. #2
- Includes claims filed in USA, Canada, and Mexico

# FREEDOM HF INVERTER/CHARGER

**xantrex™**  
Smart choice for power™

## 1800W SINE WAVE INVERTER

### Product Features

- » The quick-connect AC terminals on both AC input and output enables incredibly easy installation
- » Designed to power demanding loads such as microwave ovens, TVs, DVD players, small appliances and other electronic equipment
- » Multistage charging helps ensure that batteries are recharged quickly and efficiently
- » Ignition lockout feature helps to minimize battery drain
- » Detachable digital remote control panel display provides system information. (Cable included)
- » Automatic three-stage battery charger
- » Designed to be hardwired using quick-connect AC terminals or by connecting AC through GFCI receptacles (included)
- » Built-in 30-amp relay to automatically transfer between inverter power and incoming AC utility power

### Protection Features

- » Battery over-voltage and under-voltage protection
- » Over-temperature shutdown
- » Automatic overload protection
- » Short-circuit protection
- » Ground-fault protection
- » ETL certified to UL458 for use in mobile RV, marine and commercial applications

### Applications:

**\$799.95**

**CNG806-1840**

**SAME AS STOCK UNITS IN MACK AND VOLVO TRUCKS

### FEATURES & BENEFITS

- Advanced Grid Technology
- All The Power You Need - Performance specifications exceeds OE requirements for starting applications
- Maintenance-free technology
- Vibration Protection
- Corrosion Resistant
- Premium Warranty
- Suitcase Style Handles (on most battery types)

**CDNRG.COM**

## OUR COMMERCIAL BATTERIES ARE BUILT TOUGH AND TESTED TOUGHER.

### A FOUNDATION FOR SUPERIOR PERFORMANCE

The positive grid is the foundation on which your battery is built. This Canada Proof grid delivers life and performance superior to competitive grids

- More durable and increased corrosion resistance
- Better electrical flow for superior cranking power

### DESIGN BENEFITS

#### Maintenance-Free Technology

- Reduced gassing rate
- Stamped calcium positive alloy grid provides longer life and corrosion resistance
- Sodium sulfate additive improves ability to accept charge

#### Vibration Protection

- The plate's active material is infused with fiberglass\*, giving it the strength and resistance the battery needs to handle high vibration loads
- Specially designed lead alloy strap and anchor bonding provide increased stability for high-vibration applications
- Impact resistant polypropylene case with reinforced endwall design

\*Some models only

### VENTING

The single port gas channelled venting system collects and discharges gas away from posts. Gases generated from the cells are channeled along the manifold strip to the single port venting area. The gases must travel through a small maze, allowing electrolyte to drop back into the battery. This innovation significantly contributes to the battery's improved life expectancy, prevents corrosion and improves performance.

**CANADA PROOF MIXTECH BATTERIES PREVENT ACID BUILD UP FROM KILLING YOUR BATTERIES AND CAN EXTEND THEIR LIFE BY UP TO 2x.**

It's 100% maintenance-free, provides superior sustained performance, and offers the lowest total cost of ownership versus other conventional flooded batteries in the industry.
